

## County Treasurer comments on the accounts

All divisional county competition fees for the 2020 season have been refunded: apart from this there has been little financial activity this year. There were a few instances of delay in returning monies where individual accounts had been used to make payments without identification of the club concerned or from email accounts not being checked but all was now completed.

The accounts show a small loss of £2,305 compared to last year. Affiliation fees (a county matter) have also been returned and the JEC would need to decide on affiliation fees for 2021.

**Allowances** – The accounts show allowances claimed of £1,000. This is comprised of an allowance of £750 claimed in advance by the President (for the purchase of gifts etc for games) which would be available for next year and £250 by the previous Treasurer for work undertaken prior to their resignation. Apart from these two instances, no other officer had claimed any allowances for the year.
